Certificate of Compliance Supplied Product / RoHS Compliance

We hereby confirm that Teldor cables produced and supplied as of January 1st, 2006, are in full compliance with DIRECTIVE 2002/95/EC, on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS).

All applicable and necessary actions required of suppliers and internal operational processes to verify full compliance to DIRECTIVE 2002/95/EC have been taken and documented in accordance with ISO 9001:2000.

Teldor's cables are RoHS compliant. Only under specific and written customer request/confirmation will Teldor use materials that are not RoHS compliant.
